- Wireless USB Device Adapter (plugs into the A/V Base) with HDMI (Audio and Video), VGA (Video) and 3.5mm jack (Audio, Stereo) outputs
- Power Supply Unit
- Quick Start Guide
- CD with software, drivers and user manual

Overview

The Wireless USB Audio/Video Adapter Set allows users to watch and share any notebook/PC content (such as pictures, movies and presentations) and any Internet content, on their HDTV, a remote projector or monitor, without cable limitations.

The PC Adapter connects to a USB port (available in all notebooks/PCs) and the A/V Adapter connects to an HDMI port (available in all flat TVs) or VGA port (available in all projectors and monitors), for wireless connectivity between any notebook/PC and any TV/projector/monitor. Audio is supported via the HDMI port (with the video) or via a separate Audio jack for a complete wireless audio/video experience.

The Wireless A/V Adapter Set provides full room coverage, is easy to set up and use and is an ideal solution for home and office users alike. It incorporates Wisair's WSR601 single chip and Wisair's UltraSpeed technology, delivering the best combination of performance and cost.
